O R D E R

On August 2, 1993, South Central Bell Telephone Company ("South Central Bell") made a tariff filing to mirror its current interstate switched access rates and eliminate switched access discounts. The net effect of these rate changes is a revenue reduction of \$1,002,000. To offset this revenue reduction, South Central Bell also proposed to increase its non-traffic sensitive revenue requirement by \$1,002,000. South Central Bell proposed an effective date of September 1, 1993.

On August 18, 1993, AT&T Communications of the South Central States, Inc. ("AT&T") filed a motion for full intervention. AT&T objects to the proposed increase in non-traffic sensitive revenue requirement.

The Commission finds that, pursuant to KRS 278.190, further proceedings are necessary in order to determine the reasonableness of South Central Bell's tariff filing.

IT IS THEREFORE ORDERED that:

1. The tariff filing is hereby suspended for five months from September 1, 1993 up to and including January 31, 1994.

2. AT&T's motion for full intervention is hereby granted.

3. Nothing contained herein shall prevent the Commission from entering a final decision in this case prior to the termination of the suspension period.

Done at Frankfort, Kentucky, this 1st day of September, 1993.
